Department of Mathematics and Statistics Scholarship Application

The Department of Mathematics and Statistics uses revenues from some textbooks authored by faculty to fund student scholarships based entirely on academic excellence. Math majors, math minors, and mathematics specialists with sound academic records are encouraged to apply. The Department of Mathematics and Statistics Scholarship Committee will review all application materials. Some funds may be available for first-time freshman and transfer students who show the potential to be strong mathematics students. The completed application form should be sent to the Secretary of the Department of Mathematics and Statistics, Room 304, in the Math & Nursing Building. Students must reapply yearly.

The SFA Alumni Association oversees the Neel, Hurd, Monk/Jones, Clark and Alexander scholarships. Students must contact the SFA Office of Alumni Affairs for application information.

Name _____ ID#_____ Date _____
